COMMISSION

Re: Complaint Against DeJoy's Proposed Revamping of the Post Office

Sirs:

We need a post office that works! Since DeJoy has been on the job, the post office has not worked as well as it did when it first was implemented in the Constitution, through many wars, when troops were able to send mail home and receive it behind the lines! Nor even when Children wrote Santa Claus at Christmas time. Then – the mail got there.

Now, it won't be able to because of DeJoy's new scheme. Prior he ordered sorting machines dismantled. Made drivers take off in empty trucks, "to save time." Had blue mail boxes pulled up and put aside. And now wants to PRIVATIZE mail delivery. And have it go from place to place on TRUCKS and not by planes.

For what? To make himself (he has a mail subsidy business) and his friends like Amazon and Uber and their stockholders make a ton of money while the rest of us get our prescriptions late, have our payments delivered late and have to pay late fees...and on and on.

A person like DeJoy who was cited for forcing his employees (when he was in private business) make political donations he wanted with money he gave them, and then making them pay taxes on it! (Or a scheme similar – it's been in the news!). Uh, he's up to it again, on the federal level. Raise rates, then easily raise the amount his Privatized U.S. Mail stockholders will get yearly!

So you can bet your last postal stamp, his plans will not only slow down the mail, but slow down American business! When the country is trying to come out of an economic slump. Great thinker, DeJoy is NOT. How else do companies send out invoices? BY THE U.S. MAIL. How to customers pay those invoices? BY THE U.S. MAIL. So, implementing DeJoy's plan to make the post office slower, will REALLY slow down the economy.

Sincerely

JWHudspeth

P.S.: I know you will allow public comments only until the middle of June. I hope this gets to you by U.S. Mail prior!
